

Insurance Tracking Services

- Proprietary web based system offering first or third party insurance monitoring of applicable lines of insurance coverage per the respective entities contractual agreements, i.e. auto liability and physical damage.
- Insurance is monitored on a per unit basis for both daily rentals and long term leases.
- Web based system can be customized to meet entities specifications.
- Provide customized reports to specific requirements.
- Monthly and annual key performance indicator reports.
- Insurance tracking may be integrated with Collateral Protection Insurance (aka CPI).
